Why sponsor the gala?

- The PMISWO Website receives an average of 1,800 views per week with an average of 640 weekly users
- We send a newsletter once a week and a reminder email once a week to 1,794 members (with an average click rate of over 300), and contacts with additional emails sent to 3,378 additional regional PMI contacts for special events like the upcoming gala
- And of course, all sponsors can interact personally with attendees! The above are just some of the tangible benefits of event sponsorship. The intangible benefits include supporting the project management community in the tri-state and, through your support, helping individuals, teams, organizations, and businesses improve performance and generate better results.
